EDUCATION

X-XII

Maria School Jaspur, Uttarakhand

2020 - 2023

B.Tech

Artificial Intelligence and Data Science

Graphic Era Hill University

2023 - 2027

PROJECTS

Credit Card Fraud Detection using Machine Learning

Tech Stack: Python, Pandas, NumPy, Scikit-learn, Jupyter Notebook, Logistic Regression

- Developed a machine learning-based fraud detection system using Logistic Regression to classify legitimate and fraudulent credit card transactions
- Performed data preprocessing, exploratory data analysis (EDA), feature selection, train-test splitting, and addressed class imbalance using under sampling techniques.
- Optimized classification reliability** by prioritizing precision (94.85%) alongside standard accuracy metrics, significantly reducing false positive rates in fraud detection.

AI Medical Chatbot

Tech Stack: Python, Flask, Lang Chain, Pinecone, MongoDB, Hugging Face Embeddings, Open Router API

- Designed and developed a **Retrieval-Augmented Generation** (RAG) based medical chatbot capable of answering domain-specific healthcare queries using a vectorized medical knowledge base.
- Built an end-to-end retrieval pipeline with Lang Chain, Hugging Face embeddings, and Pinecone to enable semantic document search and context-aware response generation.
- Engineered a **highly scalable modular backend framework** with Flask and MongoDB to seamlessly orchestrate persistent chat history, stateful session management, and secure user authentication.

CAREER OBJECTIVE

Passionate Computer Science undergraduate with a strong foundation in Artificial Intelligence and Web Development. Proficient in Python, Machine Learning, Data Structures and Algorithms with hands-on experience developing projects in Fraud Detection and Medical Chatbot. Enthusiastic about solving complex real-world problems through data-driven solutions while continuously expanding technical expertise and building scalable, high-impact applications.

SKILLS

C/C++ Java Python HTML CSS

JavaScript NumPy Pandas

Scikit-Learn Matplotlib OpenMP

KEY ACHIEVEMENTS

< > **Algo University Coding Test**
Qualified Stage 1 and 2

< > **Winter Boot Camp**
Data Structure And Python Programing
